NCECA GALLERY EXPO RECEPTION

NCECA is pleased to continue the extremely popular Gallery Expo in Sacramento where you will find exceptional finished ware from top galleries across the country.

PROJECTS SPACE RECEPTION

A platform for ceramic artists to create and present works that incorporate clay as medium in time-based, performative, relational, or site-responsive work. Artists will create their works onsite interacting with visitors.

PROJECTS SPACE *Battleground, Fertile Ground, Sacred Clay* (CD / T+L / M+M)

By Ehren Tool

Trauma can be an opportunity growth. That growth can become something sacred. Come share and listen to stories as we teardown walls, make cups and build community.

PROJECTS SPACE *on holding* (S / M+M)

By Lauren Chipeur

on holding, is a site-responsive and relational installation that invites people to interact with clay collected in Sacramento. Participants will make a vessel or sculpture to hold a piece of trash collected during the conference. At the end of NCECA the clay works will be returned to the ground.

Gallery Expo and Projects Space are free and open to the public.

28TH ANNUAL CUP EXHIBITION AND SALE SUBMISSION

Coordinated by Richard Wehrs

Drop off cup donations. All donated cups will be considered for the NCECA Cups of Merit Commission Award. In its seventeenth year, the award is designed to add further recognition of the extraordinary quality of these donations. The selections will be made by a jury's review of all donated cups and winners announced on Saturday.

The NCECA Cups of Merit Award was established to recognize outstanding craftsmanship and artistic merit among the generous donors to NCECA's Annual Cup Sale. Each year NCECA appoints a small panel of three distinguished ceramic artists to make merit awards from the cups submitted. Jurors will make purchase awards totaling up to \$1000 to three or more makers. Each award will be an amount sufficient for NCECA to purchase two or more cups based on the pricing presented to the sale administrator. NCECA will retain one of the cups in its collection for as long as is practical. Cups may be periodically removed from the collection to recognize individuals for outstanding service or generosity to NCECA.

Cup Exhibition and Sale Submission is free and open to the public

REGIONAL LECTURE *Deviant Formations: Martin Wong in California* (H+C / M+M)

By Solomon Adler

Martin Wong's ceramic sculptures from the 1960s and early 1970s combine the idioms of California's countercultures—hippies, drag queens, bikers, beatniks and shamans—to articulate a paradox of belonging: these groups were bound together by their shared sense of otherness, creating a cultural interior defined by living on the outside.

DEMONSTRATING ARTISTS

Michelle Ettrick and George Rodriguez

My Life in Clay

By Michelle Ettrick

I will preroll slabs and show the audience how I use tar paper to create my templates for different forms. I will follow by choosing a form to complete then add the base underglaze to the background. I will bring bisque pieces, drawings and images to show how I create my composition and drawings. I will follow by drawing on the pieces with my drawing tool. I'll draw from start to finish adding color accordingly to the pieces I draw.

Standing Guard

By George Rodriguez

Built from slabs and decorated in flowered sprigs, a figure emerges to protect our space. This large guardian is playful, fierce, and so Sacramento. I will work from reference drawings to gauge scale, press molds for the ornamentation, and the community's energy for inspiration.

LECTURE *The Virtues of Clay Ages 0-6 (T+L)*

By Jennifer Azzariti

Observations that elevate the virtues and concepts of clay, and show the intelligence of young children, will leave participants inspired, eager to apply what they have seen, and enriched with specific ideas for how to use and manage clay in an early childhood environment.

Ballroom B, Rooms 5 & 7

LECTURE *Start Your Small Business Small Budget (SI / CP)*

By Sienna Orlando-Lalaguna

Start your small business on an even smaller budget with this introduction to everything from tax apps to studio spaces, marketing, pricing, and finding a work-life balance. This talk is geared towards students, emerging studio potters, folk interested in organizing maker spaces, and those looking to make a living in the creative world.

Ballroom B, Rooms 1 & 3

PANEL *The Fiber of Being (CD / H+C)*

Moderator: Qwist Joseph

Panelists: Jennifer Ling Datchuk, Akiko Jackson, Sharon Norwood

We will discuss the connection between the hair on our bodies and our sense of belonging in the world. All four artists investigate the effects of living within a culture that views hair as a public symbol.

11:00am-12:00pm

Ballroom B, Rooms 6 & 10

PANEL *After the Deluge: New Harvests (CD)*

Moderator: Varuni Kanagasundaram

Panelists: Tara Daly, Daniel Dallabrida, Mary Catherine Bassett

Discussion will investigate experiences, practices, theories, and resolutions that have emerged in response to significant shifts in society brought by the Pandemic. When the familiar is limited, new ways emerge. Our examination will help us understand how uncertainty/transience allows for a responsive, complex conversation between material, artist, practice, and audience.

LECTURE *The Art of Teaching Value* (T+L / CP)

By Juliana Wisdom

This Lecture presents topics for educators to consider in their curriculums to inspire students to advocate for the value of labor in ceramics. I will present several areas in ceramic education where educators can teach their students how to think about practical, historical, and theoretical issues pertaining to this consideration.

Ballroom B, Rooms 5 & 7

LECTURE *Genetic Algorithms: Problem-Solver & Creative Muse* (M+M)

By Jason Vantomme

Methods long-used in designing complex systems have considerable potential in the process of glaze development. In particular, genetic algorithms show promise both as a problem-solving tool and a tool to enable creative pathways. This lecture will explore applications of genetic algorithms to glaze development, presenting results from experiments and explorations.

1:00pm-1:30pm

Ballroom B, Rooms 6 & 10

LECTURE *Perspectives on Place: A Ceramic Response* (M+M / S)

By Mandy Parslow

Attachment to place provides fertile ground for an exploration through ceramics. Using personal interactions with my immediate surroundings, I explore the creative possibilities that place enables. A wayfaring engagement with place and the matter found there acts as an anchor line for this investigation and facilitates an evolving multidisciplinary approach.

1:00pm-2:00pm

Ballroom B, Rooms 1 & 3

PANEL *Meeting the Moments: Fertile Disruptions* (H+C)

Moderator: Ruth Chambers

Panelists: Julia Krueger, Mireille Perron, Amy Gogarty

The past several years have been marked by a global pandemic, economic collapse and calls for racial, economic and social justice. Globally, citizens have organized around issues relating to justice, equality and the environment. Our panel looks at ceramists who have met the moment, critiquing issues and proposing positive change.

1:15pm-2:15pm

Ballroom B, Rooms 2 & 4

LECTURE *Kintsugi: The Broken Pot Made Whole* (H+C / S)

By Bonnie Kemske

Kintsugi, the Japanese repair technique, never hides a pot's damage. Instead, the repaired seams appear as solid gold. This tells a two-fold tale: for example, personal metaphors of overcoming tragedy or metaphors that call us to global activism in the sustainability movement and a desire for diversity and inclusion.

Clay ReVolution

By Virgil Ortiz

Ever heard of the 1680 Pueblo Revolt? Probably not. Virgil Ortiz illuminates how he combines clay and sci-fi to educate globally about Pueblo history using art traverses into the future. Blending age-old traditional methods with contemporary clay techniques; coil, scrape, and slab building processes, focusing on bust building and carving methods. Using visual storytelling, attendees will learn about the central cast of characters from Ortiz's screenplay *Revolt 1680/2180* and how they shape the fantastical world he's creating with clay and multi-media art.

2:30pm-3:15pm

Ballroom A, Rooms 7-10

CLAY FAB LAB LECTURE/DEMONSTRATION *Slicing and Slotting Ornamental Lattices* (T+L)

By Eliza Au

This presentation will discuss and demonstrate making lattice forms in clay. Digital methods are used to plan tiles which are slotted or built into volumetric forms. Au's work explores how past and present ornament engages in the idea of sacred space in eastern and western architecture.

2:30pm-4:00pm

Ballroom B, Rooms 1 & 3

PANEL *Environmental Engagement: Clay + Solastalgia* (S)

Moderator: Wendy Gers

Panelists: Irma Vega Bijou, Joy Key, Amy Snider, Rachael Jones

This panel explores different ways the ceramics community can engage with climate justice, reduce our environmental impact and transform environmental grief into a tool to create platforms for connection, ecological awareness and restoration.

His practice intersects and brings together community events and the agricultural history of Sacramento. This lecture will present collaborations and partnerships with top Michel Star Chefs working to create equity and change in the industry.

4:15pm-4:45pm

Ballroom B, Rooms 5 & 7

LECTURE *Copyright 101 for Ceramic Decal Printers* (CD)

By Tom Edwards

Finding images on the web and putting them on your pots is great fun but what are the legal and moral boundaries? I'll cover the dos, the don'ts and the murky area in-between when we examine what copyright law and fair use have to say about ceramic decal practices.

4:30pm-5:00pm

Ballroom B, Rooms 1 & 3

LECTURE *Extracurricular: Collaborative Research as Teaching Methodology* (SI / T+L / M+M)

By Timea Tihanyi

I will discuss the crossdisciplinary projects undertaken by my studio and my collaborations with artists, mathematicians, designers, engineers, and dancers on various research projects, which involve graduate and undergraduate students from these disciplines. The studio thrives on collaboration, experimentation, and the diverse backgrounds and experiences of its participants.
